f: 07 40694324

Stephen Island Campus is a one teacher campus where support is provided by two teacher aides and a community teacher. We are committed to maintaining high expectations for our students in helping prepare them for positive learning futures. There are 10 students currently attending in 2007.

Within the Bound for Success curriculum framework, learning activities aim to promote connectedness between what happens in the classroom and what happens in the local and wider communities. Throughout the day, teaching also promotes the development of social skills through encouragement, reflection and discussion.

As a small school, in 2007 we aim to promote and embrace the TAGAI college structure to work together towards providing the best outcomes for our students.
