With a team dedicated to quality teaching and learning students receive the support and skills needed to prepare for further education. Currently there are 39 students enrolled ranging from prep through to year 7 and plans are in place to include pre-prep by 2008. In line with the B4S strategy the following tools and programs are in use:

- Walking Talking Text inservice in term 4, for implementation in 2006
- New maths strategy to include the Go Maths concept, for implementation in 2006
- New comprehension strategy, Cars and Stars, to attack low comprehension levels, for implementation in 2006
- Extra teacher aide time to reduce classroom contact numbers in 2006
- A projected total library restructure
- An in depth use of all collected data to drive teaching and learning
